PREMIUMS IN BOYS AND GIRLS CLUB WORK.

1926

A "Certificate of Achievement" will be given by the Agricultural College Extension Service of the University of Nebraska, to each active member of a Boys and Girls Club who completes his project and files a satisfactory final report.

An "Award of Appreciation" will be presented to each Club Leader, finishing his Club as an Achievement Club.

To compete for prizes enumerated in this circular the club member must be an active member, enrolled in a Boys and Girls 4-H Club under the supervision of the Agricultural Extension Service of the University of Nebraska and in addition to filing final report, must submit a story of his or her club activities and have taken part in judging and demonstration work within their own club.

Final reports must be in the office of the State Club Agent by SEPTEMBER 10 to compete for National Dairy Trip; by NOVEMBER 1st to compete for Chicago trips; and must be in by DECEMBER 1st to compete for other prizes enumerated in this circular.

Each member should see that his final report is in the hands of the local leader as soon as the club work is completed. The leader should forward these to the County Extension Agent as early as possible. The County Extension Agent should see that reports from his counties are all collected and filed in the State Office to have every member eligible to compete for prizes.

If a club member wins more than one prize trip or scholarship, offered in this circular, he or she will be given choice, and then the other prizes will be passed to the next ranking individuals in the project.

In selecting state winners, a committee will pass upon the records submitted from the counties. We recommend the same methods for selection of club and county champions. If the club member's record and story does not carry complete information as to the club member's activities, this information should be added by Agent or Leader.
